NGUYEN THANH TRUNG

Cloud/DevOps Engineer

OBJECTIVE

As a dedicated Software Engineering final student with a strong interest and practical experience in Cloud and DevOps, I am eager to advance my skills and contribute to real-world projects by supporting teams in building systems.

WORK EXPERIENCE

Backend Developer Intern

01/2025 - 04/2025

FPT Software | Ho Chi Minh

- Maintained and monitored AWS services, including Lambda, ECS, and S3.
- Developed backend APIs using Python, Golang, and MySQL.

PROJECTS

Ticket Prime

Mar 2025 - Present

Position: Developer, DevOps Engineer

Description: A comprehensive web platform for managing and selling event tickets, including a customer portal and an admin dashboard.

Team size: 2

Responsibilities:

- Deployed frontend to AWS S3 with CloudFront, ACM, and Route53.
- Automated provisioning and CI/CD with Terraform and Jenkins.
- Managed backend APIs on Ubuntu Server and ensured high availability.

Technologies: ASP.NET Core, ReactJS, AWS, Jenkins, Terraform, Nginx.

Personal Portfolio

Jan 2025

Position: Developer, DevOps Engineer

Description: A personal portfolio website showcasing my professional skills, experiences, projects, and contact information.

Team size: 1

Responsibilities:

- Built a responsive frontend using NextJS.
- Automated deployments to Ubuntu Server via GitHub Actions.
- Managed Nginx as a reverse proxy.

Technologies: NextJS, GitHub Actions, Nginx, Ubuntu.

Kit Stem Hub Website

Sep 2024 - Dec 2024

Position: Leader, Backend Developer, DevOps Engineer

Description: An e-commerce website providing educational science kits tailored specifically for students across Vietnam.

Team size: 5

Responsibilities:

- Led the team in gathering requirements and designing infrastructure.
- Deployed backend on AWS EC2 and frontend on Vercel.
- Integrated third-party services such as Google Cloud Storage, Firebase, and VNPay.

Technologies: ASP.NET Core, ReactJS, SQL Server, AWS.
